Import Monster is a revolutionary web site that has direct links into millions of auctions in Japan. Previously these auctions were unavailable to Australian's because the Japanese sellers prefer not to ship overseas nor deal with Gaijin (foreigners). Combining our advanced web site with our dedicated Japanese staff, Import Monster has overcome these hurdles!

Import Monster will equip you with everything you need to locate & purchase the parts you need. If you don't win, you don't pay! There are thousands of pages of high quality new and used parts on www.importmonster.com.au so you are bound to come across what you need. There are bargains to be had every single day and you can save thousands of dollars compared to buying local!

Import Monster removes the risks associated with purchasing items from another country - Import Monster **guarantees** delivery of purchased items or your money back! The Monster has the experience that many others lack. With over 5 years importing experience from Japan, you can rest assured that Import Monster PTY LTD are already experienced and he won't be learning at your expense! This is what the Monster does all day every day and he does it right! The Monsters contacts and experience are what set him apart from the rest. To put it simply there is no better company to entrust your valuable car parts with.
